

Product Name :
Speed Torque Characteristics Of Ac Servo Motor

Product Code :
CSL003

Description :

Speed Torque Characteristics Of Ac Servo Motor

Technical Specification :

Speed Torque Characteristics Of Ac Servo Motor Two phase AC Servo Motor (2500 RPM) Electronic speed sensor with RPM display upon panel meter Ammeter for load current DC Motor for loading Torque calculation from back emf Speed controller for motor 220 V ac mains operation Isolated supply for motor Supporting literature with patch cords, 220V mains operated
