

Product Name :
Arbour Press**Product Code :**
hp1003**Description :**

Arbour Press

Technical Specification :

Arbour Press.

Handoperated hand presses are designed for production work of quick operation in general engineering workshops, garages etc. for driving mandrels in and out of work and can be also used for inserting and removing brushes, bearings, etc. They do not bend or burr the work of necessitate taking off carrier and will prove a saving of time and increased life of arbours.

Max. pressure exerted	Tons	1/2	1	1.1/2	3	4
centre to back	Inch	5.1/2	6.3/4	7.1/2	10	10
Max. height from base to guide	Inch	11	13.1/2	15	21	25
Size of arbour round or	Inch	1.1/4	1.1/2	1.3/4	2.3/4	23
