

Product Name :
Softening Point Apparatus (Ring & Ball Apparatus)

Product Code :
Fuel Testing0004

Description :

Softening Point Apparatus (Ring & Ball Apparatus)

Technical Specification :

For determination of softening point of bituminous materials according Softening point is that temperature at which the specimen under test becomes soft enough to allow a steel ball for specified dimensions to fall a required distance under test condition. The apparatus consists of glass beaker, ring stand, two steel balls ring and ball guides hand stirrer.

(A) Softening Point Apparatus with FHP electric driven stirrer and Electric heater with temperature regulator control.

(B) Thermometer-2 Nos.
