

**Product Name :**  
THERMOCOUPLE CALIBRATION TEST RIG

**Product Code :**  
Measurment0011

## Description :

THERMOCOUPLE CALIBRATION TEST RIG

## Technical Specification :

Here simple demonstration setup is provided to experiment with characteristics of Thermocouple. Here using this setup one can calibrate different types of thermocouples. **SPECIFICATIONS**

1. Water Bath with heating arrangement.
2. Thermocouple with necessary signal conditioning circuit.
3. Thermometer.
4. Measurement of oC and Mili Volt on Digital Display
5. Digital Indicator: -
  - Least Count: - 1 deg
  - Digit: - 3 1/2
6. Powder coated enclosure
