

Product Name :
Rotary Vacuum Evaporator Cold Trap Condenser

Product Code :
SCIENTIFIC0007

Description :

Rotary Vacuum Evaporator Cold Trap Condenser

Technical Specification :

Provided with LED display for R.P.M control, industrial 10 arrangement for glass assembly control upto 100mm, Ring up/down through soft touch switches, digital temperature controlled material bath from ambient -4 deg C to 180 deg C cap 4.5 to, geared drive unit offers smooth speed relation from 20 to 180 R.P.M water circulation and vacuum inlet assembly is fitted at the rear of the 10 to reduce the pressure at glass joints of condenser. Diagonal double coiled condenser (year 2018) shaped evaporating flask cap 800mm. Receiving flask cap one to fitted with a ball joint, heating tube, vapour path tube, provided with rubber tube, pressure tube, steel clips, and spring a complete working unit

Cold Trap Condenser with 5-20 cap

Receptor path tube 5-24, 5-24

Receptor seat for receptor tube (2018)

Receptor seat for receptor tube (2018)

Receptor seat for receptor tube (2018)

Receiving flask with 5-20 cap (provided) joint capacity 1000mm

Evaporating flask (provided) cap. 800mm 5-24

Evaporating flask (provided) cap. 800mm 5-24

Evaporating flask (provided) cap. 800mm 5-24

Evaporating flask (provided) cap. 800mm 5-24

Receptor spring to fitted condenser

Receptor joint cap 5-24

Receptor joint cap 5-24

Receptor oil free vacuum pump for rotary evaporator with vacuum gauge & regulator

Receptor safety stop

Elab Engineering Equipments Manufacturers
