

Product Name :
Cement Autoclaves

Product Code :
ELABAUTOCLAVES0004

Description :

Cement Autoclaves

Technical Specification :

We are engaged in manufacturing and exporting a wide range of Cement Autoclaves. These products includes a stainless steel cylinder with a welded heat insulated voer that is confined in a heat insulated metal housing, mounted on a sturdy supporting frame. In order to control the electric heating units, the attached control unit holds in a sensitive pressure regulator, pressure gauze, power switches and pilot lights. In addition to this, to hold specimens above water level in a vertical position and autoclave, laboratory cement autoclave is offered by us with test bar holder and special rack to expose them in the same manner.

Inside chamber dimensions are – 10.5 cm diameter x 40.5 cm height
The device is suitable for operation on 230 V, 50 Hz, single phase A.C. supply.
