

Product Name :
Medical Microscope

Product Code :
MICROSCOPES0018

Description :

Medical Microscope

Technical Specification :

Medical microscope with attachable mechanical stage - Suitable for observations of cells and micro living things by using the wide-angle strain free eyepiece.

Features:-

Strain free wide field eyepiece 10° FOV

- 1. High magnification eyepiece 10x
- 2. Four achromatic per focal objectives 5x, 10x, 45x (SL) and 100x (SL) oil immersion or four achromatic coated per focal objectives 4x, 10x, 45x (SL) and 100x (SL) oil immersion
- 3. Available with locked to stage clip with attachable graduated mechanical stage.
- 4. Drawn eyepiece & graduated fine motion with sensitivity 0.002 mm.
- 5. Suitable with wide field eyepiece 10x, 1.25 mm fine stage height and fine motion. Accessible by rack & pinion movement by knob on lower left side.
- 6. 50 mm plane convex mirror (interchangeable with electric illuminator)
- 7. Mechanical tube length 160x 2 mm.

Specifications:-

Cat. No. 111 (SL) 112 (SL)

Head Straight tube
Eyepiece 10x (10° FOV) SL & 100x (SL)
Base Coarse drive stage
Mechanical stage Attachable graduated mechanical stage
Condenser Abbe condenser (NA 1.25) with iris, filter holder
Total magnification 50-1000x 250-1000x
Objectives Four achromatic per focal objectives 4x, 10x, 45x, 100x (SL) oil immersion or four achromatic coated per focal objectives 4x, 10x, 45x, 100x (SL) oil immersion
