

Product Name :
Oil Hydraulic Trainer

Product Code :
CONTROL0003

Description :

Oil Hydraulic Trainer

Technical Specification :

1) Mounted on castor wheels for portability.

2) Quick connections. Double shut off couplings for building circuits without any tools.

3) Special sub plates for all components for front connection. Enabling observation of circuits and ease of Understanding of role of each components in circuits.

4) Loading arrangement to cylinder gives added value to the equipment.
