Product Name :
Study of 4 Bit Ripple Counter

Product Code :
EEI0022

Description :

Study of 4 Bit Ripple Counter

Technical Specification :

Continuously variable voltage auto transformer, protected type. Comprises a toroidal wound transformer with a continuously variable output voltage 0-250 volts AC amp heavily under full load. Input 220-240 Volts AC 50 Hz. In stout metal case mounted on a metal base with two output terminals. Single phase with mains cable.
