

Product Name :
Lathe tool dynamometer

Product Code :
Theory of Machine0012

Description :

Lathe tool dynamometer

Technical Specification :

We are engaged in manufacturing, supplying and exporting of lathe tool dynamometers. These dynamometer are widely appreciated for the features like excellent performance, durability and long service life. Lathe tool dynamometers are manufactured under the close supervision of experienced professionals as per the defined industry standards to ensure maximum customer satisfaction. Our valued customers can buy these dynamometers from us as at industry leading prices. These dynamometers are used for measuring forces on tool during cutting process and are available with specifications of 2 comp or 3- comp i. E. Thrust, feed, radial.
