

Product Name :
AUTOMATIC TISSUE PROCESSOR

Product Code :
MEDICAL0008

Description :

AUTOMATIC TISSUE PROCESSOR

Technical Specification :

Quiet and smooth motor and gear operation.

Stainless steel tissue baskets and cassette.

Standard over temperature cutoff safety feature.

2 thermostatically controlled wax baths from 10 deg C to 80 deg C.

Six max 24 hours calibrated timing dials.

24 tissue containers (Cassettes).

1 wash coating filter.

With or without safety device.

Programmable 12 stage timing sequence.

1 or 2 stainless steel basket sizes.

10 without lip glass baskets (5 to 1 to 2 to 3 to 4 to 5 to 6 to 7 to 8 to 9 to 10).

Delay action of 24 hours.

Accessories (Optional) >

Additional basket color.

Tissue capsule basket SS.

Tissue cassette with sliding cover.

S. Shape divider for tissue capsule.

V. Shape divider for tissue capsule.

Calibrating timing disc.

Operation	Electrical
Initiation time / Station	Through 24 hrs. Calibrated Disc
Delayed start	24 Hrs.
Wash bath temperature	Thermostatically controlled
No. of Baskets	10
Classifier Size (Dia.)	26mm
Tissue processing cap.	24
S.S. Basket	1
Basket Rotor	1
Basket capacity (lt)	1
Safety Device	NA
Cutting plate	Yes
Wash bath capacity (Ltr)	1
Dimensions (mm)	550x550x10
Electrical spec.	110/220/240V single phase 50/60 Hz cycle +5%

Microprocessor
up to 16 hrs. 28 min
99 Hrs.
