

**Product Name :**  
Tissue Embedding and Cooling Systems

**Product Code :**  
MEDICAL0012

## Description :

Tissue Embedding and Cooling Systems

## Technical Specification :

Setting temperature range: ambient to 99 deg C.

Five independent heating zones for better performance.

Programmable for both ON TIME & OFF TIME.

Electrically heated forceps holder.

Set temperature memorization.

Panel temp. Display for all heated / cooled areas.

Paraffin flow control can be done manually by a switch or through foot switch.

Removable water tray.

Bright illumination of the work area.

Issue Embedding Center comes as above but with a cooling spot on Tissue Embedding Center for instant cooling.

---

Control of cooling temperature ambient to -20 deg C

Quick specimen cooling

Chilling area for approximately 60 standard samples

Easy to clean

Environment friendly refrigerant
