

**Product Name :**  
Core Cutting Core Drilling Machine Motorized

**Product Code :**  
ROK-0001

## Description :

Core Cutting Core Drilling Machine Motorized

## Technical Specification :

Compact size with light weight as well as safety in operation

High-strength gear to keep the drill working long hours constantly

The drills are equipped with a friction clutch as well as over load current protection for protecting motor

Excellent speed, smooth and stability during drilling

Out setting water swivel seal facilitate making replacement when the seal worn out

Bits capacity: 25mm Dia – 150mm Dia

Specifications :

Rated Voltage: ~220 V / 50Hz

Max. bit diameter: Ø50mm/100mm/150mm

Power Input: 2800W

No-Load Speed: 840rpm

Shaft Male: 1 1/4" UNC

Complete Combination:

The core drill includes drill motor, base, column, carriage, control panel, friction clutch, motor mount plate, rack, gear-box, out setting water swivel seal, hydraulic system.

Optional parts include water pump, rod for ceiling jack, water container, adapters.

Application:

The Core Drill is the industry standard, designed for concrete, reinforced concrete, Asphalt and brick in construction.
