

**Product Name :**  
Sampling Trays

**Product Code :**  
LAE-0001

**Description :**

Sampling Trays

**Technical Specification :**

These original white polypropylene trays are for field work and general lab use. The small trays are great for pond sampling and the larger ones for sorting leaf litter. Polypropylene is resistant to most chemicals and solvents and can be autoclaved. Both sizes are also available as packs of three.
