

Product Name :
CNC Plasma Cutter Machine

Product Code :
CAM0005

Description :

CNC Plasma Cutter Machine

Technical Specification :

The advanced mechanism designs ensure the high performance of the dynamic response.
Reduce the finishing work- as the cutting error is very small, so can reduce the work piece reworking.
Automatic height tracking system- Automatic level control systems with fast response characteristics have guaranteed the quality under the condition of high-speed.

FEATURE:

High Stability- the advanced mechanism designs ensure the high performance of the dynamic response.
Reduce the finishing work- as the cutting error is very small, so can reduce the work piece reworking.
Automatic height tracking system- Automatic level control systems with fast response characteristics have guaranteed the quality under the condition of high-speed cutting.
Easy Installation and maintenance- Reasonable modular design is convenient for assembly and maintenance.

SPECIFICATION:

Automation Grade: Automatic
Machine Type: CNC Cutting Machine
Finishing: Powder Coated
Max Cutting Length: 0-500 mm, 500-1000 mm
Max Cutting Speed: 500-1000 mm/min
Max Cutting Thickness: 15 mm
Max Cutting Width: 500-1000 mm
Accuracy: $\pm 0.02\text{mm}$
Repeatability precision: $\pm 0.02\text{mm}$
