

Product Name :
SONAR/ ULTASONIC TRAINER

Product Code :
EELELABT10003

Description :

SONAR/ ULTASONIC TRAINER

Technical Specification :

Range: 6 inches to 15 inches

Accuracy: 1 inch

In built Power supply :5 volts DC

Onboard controlled LCD Display

On board Test points to study the signals
during operation of sensor

Faults study using hardware switches, during operation.

15 inches scale for distance measurement concept study

EXPERIMENTS:-

To study and detect obstacle at particular distance.

To study and measure the distance of obstacle at varying distance.
