

Product Name :
LVDT TRAINER KIT

Product Code :
EELELABT10013

Description :

LVDT TRAINER KIT

Technical Specification :

AC-AC spring Loaded LVDT.

PIC compatible.

16*2 LCD display to show value of displacement

Can detect displacement of 0 to 14.5 cm

On board power supply section with power indicator and test point

On board programming facility with 6 pin as well as 10 pin cable

Buzzer indication at center level

LED display for changing of the polarity.

555 Timer IC for the excitation of sensor.

Elab Engineering Equipments Manufacturers
