

Product Name :
Linear Motion Apparatus

Product Code :
ELB-TECH0001

Description :

Linear Motion Apparatus

Technical Specification :

Bench top for investigations on motion, plastic and elastic impact, momentum, spring-mass oscillation and on friction System to consist of: inclinable track with stoppers at both sides rolling carriage plunger carriage friction block 3 tension springs device for actuation of carriages and friction block deflection pulley 3 sets of weights cord moveable stopper for track additional weights for carriages including measuring tape: length: 2000mm, resolution: 1mm 3 buffers with rubber buffer heads for covering of permanent magnets 2 additional steel weights for carriages: 2x 400g for each; w x d x h: $\pm 2100 \times 130 \times 100$ mm English operation /instruction manual.

We are well-known manufacturers, OEM suppliers of Linear Motion Apparatus for Technical Training Supplies. Contact us for high quality Linear Motion Apparatus for Technical Training Supplies for schools lab, college lab, universities, research labs, various teaching and workshop training laboratories and industries in India.
