

Product Name :
G-Pendulum Apparatus

Product Code :
ELB-TECH0002

Description :

G-Pendulum Apparatus

Technical Specification :

Bench top unit for investigating the duration of the period of a pendulum as a function of the length of the pendulum and acceleration due to gravity. Pendulum fitted with adjustable sliding weight, special mounting with angle measuring scale. Pendulum plane angle continuously adjustable: 0-90° to reduce the action of acceleration due to gravity. Steel pendulum length: max. 250mm, rod, weight: approx. 65g. Steel pendulum mass: weight: 0.5kg. Metal stand with leveling bolts and integrated bubble level. w x d x h: ± 300x250x550mm. English operation / instruction manual.
