

Product Name :
Plastic Waste Shredder

Product Code :
ELB-INCT-0012

Description :

Plastic Waste Shredder

Technical Specification :

Plastic Waste Shredder We are manufacturer, supplier and exporter of a wide range of Plastic Waste Shredder which are manufactured using high quality materials. Pollution is a major issue caused by unsafe disposal of toxic & hazardous material. Since the materials like empty glucose bottles, hoses syringes, gloves etc. when burnt, emit gases, they have to be disposed of properly by using alternate safe methods. These when thrown are collected and resold in a new packaging, giving the impression of being fresh, resulting in the spread of deadly diseases. Our shredder is designed to avoid such instances and make the environment pollution free. The shredder shreds all kinds of waste like syringes, needles, glucose bottles, mineral water bottles, plastic lumps, pellets, wood paper, cardboard etc. Features:- Solid body structure and casing Low noise level Heavy duty gear Maintenance gear Unit is protected against overloads and equipped with fuses Auto reverse features with PLC control (optional) Pneumatic feed control (optional) Low budget machine Application:- Finishing & Producing Industry Hospitals/Nursing homes Bio Medical Waste Laboratories Catering Industry Supermarkets Municipal Authorities Pharmaceutical Industry Plastic Industry Card Board Industry Motor Capacity:- 3 KW 5 KW 7.5 KW
