

Product Name :
Human Skeleton 66 Full Size 168cm

Product Code :
ELAB-HUMC0002

Description :

Human Skeleton 66 Full Size 168cm

Technical Specification :

Human Skeleton 66 Full Size 168cm

Description:-

The full-size human skeleton is a great teaching tool in any classroom or laboratory.

Comes with roller base and supplied with a diagram.

The skull features skullcap, suture lines, and a full dentition.

Bones are cast individually from naturally colored PVC with anatomical detail.

All parts are utilized in such a way to allow complete movement around the joint.

Skeleton is made exclusively of high-quality medical PVC.

Both the arms and legs are removable for further study.
