

**Product Name :**  
Digital Respinometer

**Product Code :**  
ELAB-PHM0013

## Description :

Digital Respinometer

## Technical Specification :

Digital Respinometer  
Polished Stainless Steel tank, with capacity of 7 manometers a side.  
Digital temperature display with resolution of 0.1 deg. C.  
Temperature control to within  $\pm 0.5$  deg. C.  
Stainless Steel immersion heater.  
Stirrer for uniform temperature.  
Manometers mounted on graduated scale for reading pressure changes.  
Flask with center well & side flask attached to manometer.  
Oscillation of manometer approximately 90 rpm.  
Powder coated exterior, with wheels for easy mobility.  
Capacity 7 manometers, temperature range of 5 deg. C above ambient to 60 deg. C.
