

Product Name :
Switch And Plug-Socket Endurance Tester

Product Code :
ELAB-SWTC0002

Description :

Switch And Plug-Socket Endurance Tester

Technical Specification :

Power supply: AC220V \pm 10%/50Hz
Working station: 6 stations?three for linear switch and three for rotary switch
Operation interface: 7-inch multicolor touch screen
Type of drive: Servo motor +ball screw
Controlling system: PLC control
Testing times: 0?999999?it can be preset.
Connecting time: 0?99.9s?it can be preset.
Closing time: 0?99.9s?it can be preset.
Testing scope: Linear:-40?110mm?it can be preset.
Rotary: 0?360°?it can be preset.
Testing speed: Linear:0?100mm/s?it can be preset.
Rotary: 0?90°/s?it can be preset.
Atmospheric pressure: 80?106kpa
The temperature of environment 5?40°C
Relative humidity: ?20?90?%RH
Using place: No violent shaking
Without electromagnetic interference and dust.
No explosive or corrosive gas.
