

Product Name :
Horizontal Deep Freezer

Product Code :
ELAB-DEEP0002

Description :

Horizontal Deep Freezer

Technical Specification :

Horizontal Deep Freezer Compact design with large storage capacity Outer casing is galvanized steel with baked on paint finish for durability Robust construction and elegant looks Inner liner is Stainless Steel/Pre coated GI Higher Capacity System for fast pulls down High density, environment friendly, polyurethane foam for better insulation High-pressure injection machine used for efficient insulation R-134 a refrigerant, chlorine free, environment friendly Carrier/Kirloskar/Tecumseh compressor Built in voltage stabilizer with time delay relay Energy saver compressor-low energy consumption Longer thaw out time to take care of prolonged periods of failure 60mm thick insulation Temperature range (ambient to -22°C / -40°C) Temperature controlled through solid-state digital temperature controller cum indicator
