

**Product Name :**  
Syringe Infusion Pump

**Product Code :**  
ELAB-INP0002

#### **Description :**

Syringe Infusion Pump

#### **Technical Specification :**

Syringe Infusion Pump

Self-explanatory with abbreviated operating instructions on LCD.

Easy-to-read liquid-crystal displays all essential data in large size numbers.

Reducing the chance of erroneous readings.

LCD provided with back light for viewing in dark environments.

Selectable three-step occlusion detection pressures.

Low, mid & high-occlusion setting.

"Keep-Vein-Open" function.

Infusion rate in KVO is 1% but not less than 0.1 ml/hr.

This prevent the infusion line from blocking due to blood clots.
