

Product Name :
Cork Borer

Product Code :
ELAB-CHL0002

Description :

Cork Borer

Technical Specification :

Cork Borer

Our products find their applications in chemistry and biology laboratory.

The offered products are available in the market at reasonable rates.

These are scientific products made under the vigilance of our quality analysts.

These are available in different design and construction finishes to meet the specific needs in given applications.

Material:- Copper

Weight:- 2 to 6 kg
