

Product Name :
Mettmert Incubator

Product Code :
ELB-BOD0002

Description :

Mettmert Incubator

Technical Specification :

Temperature: 5 deg. C above ambient to 60 deg. C
Wall Type: Triple Walled
Inner chamber: S.S.304
Outer chamber: Mild Steel with Powder coating
Insulation: Glass wool insulation
Accuracy: +/- 2 deg. C
Heating element is made of high grade chrome plated nichrome wire
Heaters are placed at the right & left side of the inner chamber
Enable with thermostat control the temperature
Air Ventilation is placed on top of both sides to remove heat gases and fumes
Control Switch & pilot lamps are fitted on front panel
