

Product Name :
Plasma Cutting Machine

Product Code :
ELABHTOOLSUK490002

Description :

Plasma Cutting Machine

Technical Specification :

Independent table construction for high accuracy
Powerful Eckelmann controller for full cutting control
High performance
Kjellberg cutting technology
High productivity
designed for multi-shift operation
Extensive options list for customized solutions
Work area/ cutting width & length/ (mm): 3150 & 2050
Distance between cutter head and table (mm): 170
Rapid feed (mm/min): 3000
Table load capacity max. (kg/m²): 1000
Table height (mm): 800
Total width and length (mm): 4500 & 3500
Weight kg): 4500
With all Standard equipment's, five different set tools and accessories
