

Product Name :
Electro Discharge Machine-EDM

Product Code :
ELABHTOOLSUK490004

Description :

Electro Discharge Machine-EDM

Technical Specification :

Positive and negative double independent high-voltage power supply design, reliable performance.
Built-in IEC test standard level and user self-setting function.
Compact structure, small and light, easy to test on site.
The anti-interference performance during electrostatic discharge provides a comprehensive and complete solution.

Generator capacity: A 40

Generator power consumption, KVA: 3.5

Removal rate max.: mm³ /min 400

Electrode wire, Min.: ?% 0,2

Rough. ?????????????????? 0,3

X –Y axis travel, mm: 250-200

Quill stroke,: mm 200

Table dimension: mm 450x280

Electrode holder- to- table distance: mm 200-400

Electrode weight max: kg 30

Work piece weight max: kg 200

Over all dimension: (length * width * height) mm. 139*1480*2100

Weight kg: 1000.
