

Product Name :
Electrical Drill

Product Code :
ELAB-TENDR-001-0024

Description :

Electrical Drill

Technical Specification :

Drill machine heavy half metal body drill machine , copper motor and solid plastic body with comfort grip handle. Ergonomically designed for ease of handling and efficient cooling system 13mm chuck ideal for all types of domestic tasks

Can be used for drilling on any kind of surface like concrete, wood and metal. It has a power lock button which assist in continuous drilling task.

Reverse brush system for full torque and power in forward and reverse, lock on button for continuous use, Hammer drill with ergonomic design and soft grip handle

Variable speed control

R/L rotation

Capacity in steel 13 mm

No load speed 0-3000 rpm

Power 810 W

Supplied complete with:

key type drill chuck
