

Product Name :
Ripple Tank

Product Code :
ELAB-TENDR-002-0068

Description :

Ripple Tank

Technical Specification :

To illustrate important wave motions like rectilinear and circular motion.
This Ripple Tank is comprised of a molded frame with an acrylic window.
Scratch resistant supported by adjustable legs.
This dual purpose tank is a versatile apparatus allowing all types of waves and wave motion. With illuminator lamp and important accessories included, it forms a complete ready to use unit.
The unique design and size allows it to be used on an overhead projector as well.
Metal frame with an acrylic tray, four legs, a gently supplied for supporting a motor beam.
Ripples are produced by a small 1.5V to 4.5V d.c motor mounted on a plastic beam of 240mm length, two spherical dippers, barriers (one spherical two long and one short)
